

F.O.C.U.S. User Group Meeting Announced

March 17th 2003 Cardiff, Wales – The date and location of the next meeting of the F.O.C.U.S. User Group has been announced. It will be held at the Quality Inn, Coryton, near Cardiff on the 4th and 5th of March and all users of the F.O.C.U.S. Practice Management system are invited to attend.

‘These meetings of the F.O.C.U.S. User Group are important dates in the Relcon calendar’ says Robert Ward, MD of Relcon Software. ‘They are opportunities for our users to tell us what we are doing right – and, equally important, what we are doing wrong. And they provide the ideal opportunity for our users to share their ideas for future developments with us, so that F.O.C.U.S. can continue to evolve in ways that are most beneficial to them.’

Topics to be covered on the day will include a review of the features of the latest version of F.O.C.U.S. (Version 4); an update on different VAT methodologies available with F.O.C.U.S.; a review of issues relating to standing orders and direct debits; and a discussion of future development plans. Relcon are also pleased to announce that Patrick Myers of Myers La Roche, will be giving a presentation on how practices can improve their profitability using information that is automatically generated by the F.O.C.U.S. Practice Management System.

‘Although computer systems are the main reason for these meetings, they are not simply technical meetings for anoraks,’ says Robert Ward. ‘They are great opportunity for like-minded opticians to meet, discuss and share ideas for better and more profitable practice management. As far as we are aware we are the only UK software company to run such meetings – the User Group itself is a major benefit of investing in the F.O.C.U.S. Practice Management System.’
