

OcucoRelcon, the practice management software experts, announced a new look for the Acuitas PMS, which was unveiled at Optrafair. The highly acclaimed software retains all of its function rich features whilst combining this with a new look and feel that gives users a set of choices about how they want to get the most out of the system.

As part of the philosophy of engagement and partnership with existing customers OcucoRelcon unveiled the newly re-mastered user interface to both new and current customers at OpraFair. It was a great chance for prospective purchasers to see it for themselves. This proved to be a great success. We are very excited by the outcome of this project, which we feel has really impressed both new and existing customers.
