Acuitas™ Software Suite

Ocuco is a leading provider of software solutions for independent optical practices and chains. Market commitment since 1993, with a strong focus on design, development, and continuous improvement, has given us the leading edge in Patient Relationship Management software.

David Clacher, F.A. Schwarz Optometrists, Wrexham, Clwyd

Excellent Clinical Notes, providing easily audited clinical data. Friendly Diary interface, making the best of our time. I will certainly be recommending Ocuco to friends and colleagues.

Ralph Butcher, Norville Opticians, Bristol, Avon

Integra™ has the ability to link a Fundus camera directly with the patient's file, without having to backtrack to images archived on CD-ROM or DVD.

Michael Mays, Owen Aves Opticians, Colchester, Essex

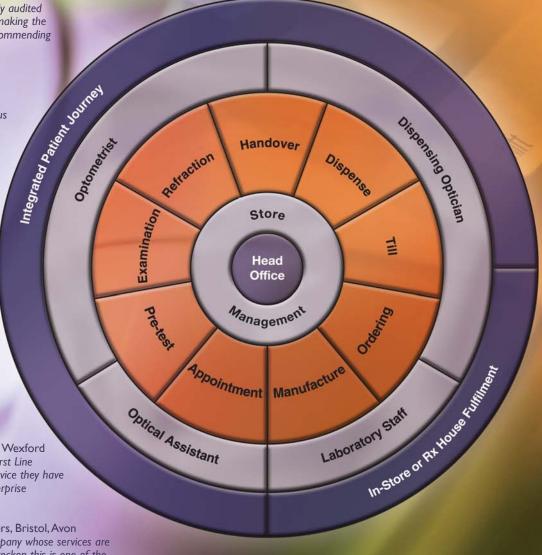

Acuitas™ dispensing module helps to speed up ordering while being simple to use. The Diary greatly helps my business.

Paul Whiteman, I-Contact, Reigate, Surrey

Patient recall is more targeted. The network system has improved appointment-making in our two practice sites. The dispensing module helped with the efficiency of our in-house workshop.

Mark Gouldson, MPSI, Rosslare, Co. Wexford Compliments to the Installation and First Line Support teams for the outstanding service they have provided during the conversion to Enterprise

Mark Houlford, GA Brock & Partners, Bristol, Avon It is exciting to be involved with a company whose services are evolving to meet their clients' needs. I reckon this is one of the best investments you can make.
